## eBay werx

### Automated Business Solution for your eBay Store

#### Take Control of Your Business

Focus your attention on your eBay business by reducing your administration time.

By integrating to Microsoft Dynamics NAV, you'll be able to manage your inventory levels, control your debtors and have the general ledger look after itself!

Dynamics NAV for eBay is easy to use, quick to implement, and is a comprehensive business solution fully compliant with Australian business & corporate standards.

Your eBay business will grow because you will be able to dedicate yourself to increasing your product range and improving your profits instead of being burdened with administration & red-tape.

## Reduced Workload

eBay orders are received automatically into Dynamics NAV without intervention. They can then be picked, shipped and invoiced all without re-keying.

The days of re-entering transactions will be gone forever, saving you time and money while increasing accuracy.

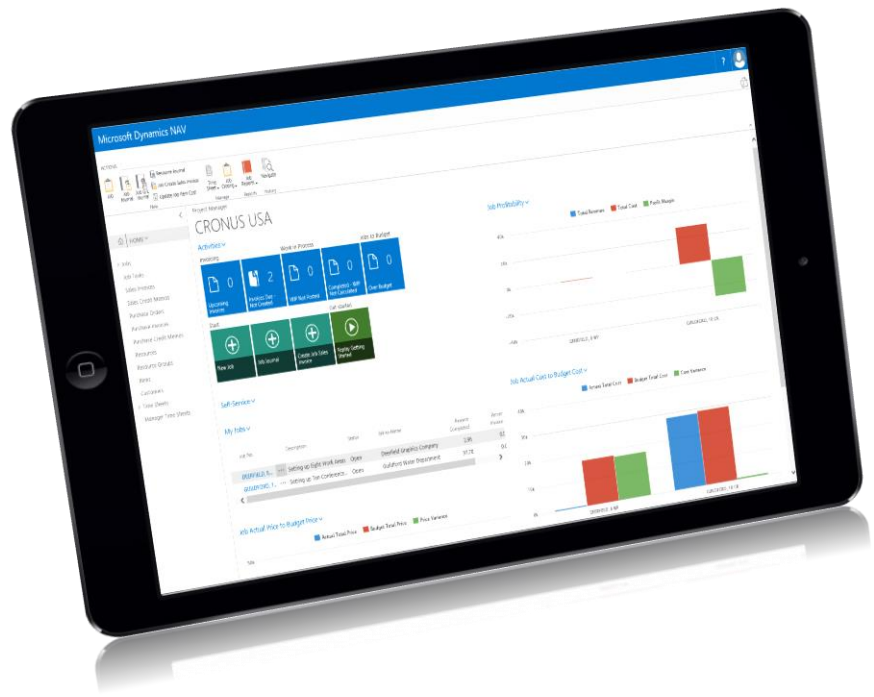

## Increase Customer Satisfaction

- ✓ Fill your eBay orders faster
- ✓ Customers see a real-time inventory availability
- ✓ Lower overheads leads to better prices and an opportunity to sell even more

## Robust, Reliable, Trusted, Comprehensive

Built on robust Microsoft technologies, Dynamics NAV provides an integrated solution with accounting, debtors, suppliers, inventory and much more.

Control your debtors, pay your suppliers and keep track of your cash flow, all this from a cloud-based system you can access from anywhere in the world.

And as your eBay business grows, NAV will grow with you, allowing to use features such as warehousing, relationship management and foreign currency. All this for a simple, low, monthly subscription.
